

After School Information – Second Term: January to March 2012

Continuing this year, students who are interested in signing up for a workshop can choose a 2, 3, or 4 day option as well as the full week option. When signing up, the student can indicate the specific dates in which they will be attending the workshops and will only be charged for those dates. In order to ensure that children of all ages get the most out of our after school program, there may be workshops geared towards specific age groups. We realize that, with some activities, younger children feel left behind because they cannot keep up with the older children's pace, and likewise, older children can become bored if an instructor is forced to spend more time focusing on younger children's needs.

Please note:

- ❖ Students **must** be signed up by the Thursday evening the week before the workshop is to run so that numbers can be finalized and material can be purchased. Accounts will be charged at this time.
- ❖ Families will be charged for all dates for which they are registered. There will be a 50% withdrawal fee for those who sign up for workshops and drop out before the workshop begins and 100% for withdrawing once the workshop has started.
- ❖ Regular after school care from 2:30-6:00pm is included with this option as well.
- ❖ Late registrations may be accepted based on space available. However, materials cannot be guaranteed for the first session.
